

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is designed for manufacturing garments, shoes, and accessories. It features multi-thread stitching, adjustable settings, robust construction, safety features, and precise control.

Overview

High-Performance Industrial Overlock Machine

This industrial overlock sewing machine is engineered for high-volume production environments, specifically tailored for garment, footwear, and accessory manufacturing. It features a robust, durable construction capable of handling intensive daily use while maintaining consistent, professional-grade stitch quality. Equipped with multi-thread stitching capabilities and adjustable settings, it offers the precision and reliability required for demanding textile applications.

Technical Specifications

Model Number	BSO-3304-084-40H
Maximum Speed	1300 RPM
Stitch Configuration	Three-thread overlock

Compliance & Safety

Certifications	CE Certified
