

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is designed for garment and shoe manufacturing. It features a high-speed stitching mechanism and adjustable tension dials for efficient and durable fabric processing.

Overview

Professional Industrial Overlock Machine

This high-performance industrial overlock sewing machine is engineered for precision and efficiency in garment, footwear, and accessory manufacturing. It features a robust high-speed stitching mechanism capable of handling diverse fabric types with professional-grade finishing. Designed for demanding production environments, the machine includes adjustable tension controls and multi-spool threading to ensure consistent, durable seams on every piece.

Key Features

Operational Features

- High-speed stitching mechanism
- Multi-thread spool capability
- Adjustable tension dials
- Versatile fabric handling

Suitable Applications

Garment Manufacturing, Shoe Production, Accessories Manufacturing
