

Industrial Overlock Sewing Machine with Square Head

This industrial overlock sewing machine is designed for high-speed and precise stitching. It features a robust square head construction for stability and durability.

Overview

Industrial Overlock Sewing Machine

This industrial-grade overlock sewing machine features a robust square head construction, engineered for high-speed operation and precise stitching. Designed specifically for demanding textile environments, its stable build ensures durability during continuous use. The machine is equipped with multiple thread spools to support efficient, high-volume production workflows.

Technical Specifications

Performance Features

- High-speed operation
- Precise stitching capability
- Multi-spool thread support
- Robust square head stability

Machine Design	Square head construction
Application	Industrial, Textile Industry, Overlock Stitching
