

Industrial Overlock Sewing Machine

The industrial overlock sewing machine is a high-speed, heavy-duty machine designed for professional sewing applications. It features a robust construction and precise stitching mechanisms.

Product Overview

Industrial Overlock Sewing Machine

This high-speed, heavy-duty industrial overlock sewing machine is engineered for professional textile and garment manufacturing environments. Built with a robust construction, it delivers precise stitching mechanisms and reliable performance for demanding production lines. The machine includes adjustable settings to accommodate a wide variety of fabric types, ensuring consistent quality and operational efficiency.

Technical Specifications

Model Number	TY-GN6000-7D
Machine Type	Industrial Overlock
Performance Features	High-Speed, Heavy-Duty, Adjustable Settings

Applications

Suitable Industries

- Garment Manufacturing
- Textile Production
- Industrial Sewing
