

# Industrial Paper Cutting Knife

High-precision paper knife designed for industrial cutting applications. It features a durable, hardened steel blade with multiple mounting holes for secure attachment and precise alignment.

## Overview

### Industrial Paper Cutting Precision

This industrial paper guillotine knife is engineered for high-precision cutting applications in commercial environments. Constructed from premium materials including HSS, Alloy Steel, and TCT, it offers exceptional durability and edge retention. The blade is designed for clean, accurate cuts, ensuring optimal performance and longevity for heavy-duty paper processing tasks.

## Technical Specifications

Available Materials	HSS, Alloy Steel, TCT
Hardness (HRC)	66 HRC
Primary Usage	Industrial Paper Cutting
Dimensions	L x W x T
