Product Overview

Industrial Pipeline Gate Valve

This industrial gate valve is engineered for reliable fluid control and shut-off in pipeline systems. Featuring a robust design with a manual handwheel, it ensures precise flow regulation and durability in demanding industrial environments. The valve is constructed with high-quality materials, making it a dependable solution for various fluid management applications.

Technical Specifications

Nominal Pressure

16 PN

Nominal Pressure

Nominal Diameter

80 DN

Material

Ductile Iron, DI

Logistics & Packaging

Standard Packaging

- Plastic film wrapping
- Wooden pallet
- Custom packaging available upon request

Shipping Methods

Sea Freight • Air Freight • Express Delivery
