## Overview

### Industrial Plastic Crushing Solution

This industrial plastic crusher is engineered for high-efficiency processing of a wide range of soft and hard plastic materials. Designed with reliability and ease of maintenance in mind, it features a simple disassembly structure that reduces downtime during cleaning. The machine operates with low noise and electricity consumption, making it an ideal, durable asset for industrial recycling operations.

## Performance

### Key Operational Benefits

High Efficiency, Low Noise Operation, Energy Efficient, Easy Maintenance, Durable Construction

## Applications

### Compatible Materials

- PET bottles and labels
- PE films, pipes, and bags
- PP woven bags, drums, and pallets
- PVC pipes and profiles
- Rubber and plastic injection mold waste
- Consumer electronics (TV shells, keyboards, mice)
- Textiles (Nylon, Non-woven, Leather, Fibers)

### Material Categories

Rigid Plastics • Soft Plastics • Rubber • Synthetic Textiles
