

Industrial Plastic Crushing Machine

This heavy-duty machine is designed for crushing and processing plastic materials. It features a robust construction with a large flywheel, reinforced frame, and a powerful motor for high-stress applications.

Overview

Heavy-Duty Industrial Plastic Crusher

This industrial plastic crushing machine is engineered for high-stress material processing applications. It features a robust, reinforced frame designed to withstand the rigors of heavy-duty operation. Equipped with a large flywheel, the system efficiently manages kinetic energy to deliver powerful crushing performance for various plastic materials.

Technical Specifications

Machine Color	Blue
Flywheel Color	Orange

Performance Metrics

Drive System	High-Torque Flywheel • Powerful Motor
Construction Type	Heavy-duty, Reinforced Frame, Industrial Grade
