

Industrial Platform Dolly with Swivel Casters

This heavy-duty industrial dolly features a textured black rectangular platform. It is equipped with four swivel casters, making it suitable for warehouses, factories, and other industrial settings.

Product Overview

Industrial-Grade Mobility Solution

This heavy-duty industrial dolly is engineered for efficient material handling in demanding warehouse and factory environments. Featuring a reinforced rectangular platform with a textured non-slip surface, it ensures maximum stability and safety during transport. The integrated swivel casters provide superior maneuverability, allowing for smooth navigation through tight industrial spaces while protecting your floors.
