

Industrial Polishing Machine

This polishing machine is suitable for use in nail, wood engraving, and mould polishing. It can also be used for precision parts carving and circuit board drilling.

Overview

Industrial Precision Polishing Solution

The JD7500 is a robust industrial polishing machine engineered for precision and efficiency in high-demand environments. Featuring variable speed control, it delivers optimal performance across a wide range of materials and complex applications. The unit includes a durable handpiece and responsive foot pedal, ensuring enhanced control, comfort, and reliability during extended professional use.

Applications

Suitable Applications

Nail Care, Wood Engraving, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing, Precision Parts Carving, Circuit Board Drilling
