Product Overview

Industrial Portable Cooling Solution

This industrial portable spot air conditioner is engineered for demanding environments such as factories, warehouses, and workshops. It features a compact, mobile design with universal wheels, allowing for easy repositioning wherever targeted cooling is required. Equipped with a powerful rotary compressor and flexible exhaust ducting, it delivers reliable and energy-efficient climate control without the need for permanent installation.

Performance Metrics

Refrigerant	R407C, R410A
Water Tank Capacity	15 L

Features & Design

Mobility

- 4 Universal wheels
- Compact design
- Low weight

Control Interface	LCD Display
Air Flow Control	Yes

Operational Capabilities

Capabilities

Energy Efficient • Low Noise • Spot Cooling • OEM Available

Installation	Portable unit with optional exhaust duct connection for outdoor use
