

Industrial Power Generator

This generator is designed for reliable power generation in various applications. It features a heavy-duty engine coupled with a high-efficiency alternator, ensuring stable and consistent performance.

Product Overview

Industrial Power Generation Solution

This robust generator is engineered for reliable performance in demanding industrial and commercial applications. With over 300 variations available, it offers versatile power solutions for heavy-duty vehicles, mobile power stations, and infrastructure. Designed for stability and low maintenance, the unit features an integrated control system and a high-efficiency alternator mounted on a reinforced base frame.

Compliance and Quality

Market Recognition

HOT

Certifications

CE, ISO9001:2008, UL

Technical Specifications

Engine Series

- G128/135
- C(121)
- D(114)
- P11C
- 105

Key Operational Capabilities

- Stable heat dissipation cooling system
- Reduced-vibration base frame
- Integrated monitoring control panel
- Low maintenance expenditure
