Product Overview

Industrial Power Distribution Solution

This industrial-grade power outlet box is engineered for robust power distribution and overhaul applications in demanding environments. Constructed from durable ABS engineering plastic, the unit comes pre-wired to facilitate direct and efficient installation. It features a comprehensive safety system, including a main air switch and individual branch leakage protectors, ensuring reliable operation for various industrial tools and equipment.

Technical Specifications

Rated Current

63 A

Rated Current

Protection Level

IP44

Enclosure Material

ABS Engineering Plastic

Physical Dimensions

Dimensions (L x W x H)

370mm x 340mm x 330mm

Components & Configuration

Detailed technical overview of the PXH031204 power distribution box components and specifications.

Component Configuration

Component	Quantity	Specification
Output Sockets	4	3P, 16A, 220V
Main Air Switch	1	4P, 63A
Branch Leakage Protectors	4	2P, 16A, 0.03A
Wiring Inlet	1	Concealed Plug, 63A, 4P, 380V

Certifications

Compliance	CQC, CCC, ISO 9001
