

Industrial Power Socket with Hinged Cover

This robust industrial power socket is designed for heavy-duty applications. It features a red socket insert with four circular pin receptacles and a hinged red protective cover to prevent dust and moisture ingress when not in use.

Product Overview

Industrial-Grade Power Solution

This industrial power socket is engineered for robust performance in heavy-duty environments. Featuring a secure hinged cover, it provides essential protection against dust and moisture ingress, ensuring longevity and safety. The angled mounting base allows for stable installation, making it an ideal choice for connecting critical machinery and power tools.

Technical Specifications

Component Colors

- Red insert
- Red protective cover
- White base

Pin Configuration

4 pins

Design Features

Hinged Cover, Weather-Resistant, Angled Base, Heavy-Duty

Mounting Style

Angled surface mount
