

# Industrial Refrigerated Chiller Unit

This refrigerated chiller unit provides cooling for industrial equipment. It offers precise temperature control and energy-saving operation.

## Overview

### Industrial Precision Cooling Solution

This industrial refrigerated chiller unit is engineered for reliable, high-precision thermal management in demanding manufacturing environments. Featuring dual operational modes—constant temperature and intelligent temperature control—the unit automatically adjusts to ambient conditions to maintain stability. Its robust build and versatile performance specifications make it an essential component for diverse industrial equipment cooling requirements.

## Technical Specifications

### Key Performance Metrics

<b>3000 W</b> Cooling Capacity	<b>15 L</b> Tank Capacity	<b>70 Kgs</b> Gross Weight
-----------------------------------	------------------------------	-------------------------------

### Electrical Requirements

- Voltage: 110V-220V
- Frequency: 50/60Hz
- Pump Power Options: 0.05KW, 0.1KW, 0.37-0.75KW

### Hydraulic Performance

- Max Flow Rate: 13L/min to 70L/min
- Max Lift: 10M, 25M, or 28-53M

### Compatible Refrigerants

R-22 • R-410a

## Dimensions and Logistics

### Unit Dimensions

Metric	Value
Unit (L x W x H)	67 x 47 x 89 cm
Packing (L x W x H)	74 x 60 x 109 cm
Net Weight	60 Kgs

## Certifications

### Compliance and Standards

CE, RoHS
