

Industrial Safety Helmet with Adjustable Suspension

This high-density polyethylene (HDPE) safety helmet is designed for robust head protection in various work environments. It includes ventilation slots for enhanced breathability and a durable shell to withstand impact and penetration hazards.

Product Overview

Industrial Safety Helmet Overview

This industrial work hard hat is engineered for durability and user comfort in demanding environments. Constructed from high-quality ABS plastic, it features a four-point double layer lining and integrated vent-holes for sustained breathability. Designed with an adjustable headband, it ensures a secure and customizable fit for various head sizes.
