Product Overview

Industrial Protection Standards

This industrial safety helmet is engineered for high-performance protection in demanding work environments. Built to meet EN397 and CE standards, it provides critical defense against punctures, shocks, and electrical hazards. Available in durable HDPE or high-rigidity ABS materials, this helmet offers a customizable fit through pin, ratchet, or auto-locking adjustment mechanisms.

Technical Specifications

Shell Materials

- HDPE (Lightweight with good toughness)
- ABS (High rigidity and high brightness)

Protection Capabilities

Anti-puncture • Anti-shock • Insulated

Standards & Compliance

EN397, CE

Design & Comfort

Adjustment Manner

- Pin
- Ratchet
- Auto-locking

Head Suspension

6 point with belt

Chin Strap

4 point

Weight Metrics

Weight by Adjustment Type

400 g

Pin Adjustment

443 g

Ratchet Adjustment

413 g

Auto-locking Adjustment

Logistics & Packing

Packing Specifications

Type	Assembly	Carton Qty	Weight (Gross/Net)
Pin	Assembly	24 pcs	11/9 kgs
Pin	Separately	28 pcs	12/10 kgs
Ratchet	Assembly	20 pcs	10/8 kgs
Ratchet	Separately	28 pcs	11/10 kgs
Auto-locking	Assembly	20 pcs	10/8 kgs
Auto-locking	Separately	26 pcs	11/10 kgs
