

Industrial Screw Air Compressor

This high-efficiency screw air compressor is designed for industrial applications. It features advanced control systems, robust construction, and optimized energy consumption.

Product Overview

Industrial Screw Air Compressor

This high-efficiency screw air compressor is engineered specifically for demanding industrial applications. It features robust construction to ensure reliability and longevity during continuous operation. Designed with advanced control systems and optimized energy consumption, this unit provides a consistent and efficient air supply for professional environments.

Technical Specifications

Model Number	EAS200-2
Compressor Type	Screw Air Compressor

Performance Metrics

Key Performance Indicators

200 HP

Capacity Class

Application Features

Key Features	High Efficiency, Industrial Grade, Continuous Operation, Advanced Control System
