

Industrial Screw Chiller

This industrial screw chiller is designed for efficient cooling in various applications. It features a screw compressor and an advanced control system for precise temperature management.

Zhejiang Qinjiao Refrigeration Equipment Manufacturing Co., Ltd.

Product Overview

Industrial Screw Chiller Overview

This industrial-grade screw chiller is engineered for high-performance cooling in demanding environments. It features a premium European-made compressor and a high-duty heat exchanger to ensure consistent and reliable thermal management. With an integrated full-auto microcomputer control system and an intuitive touch interface, the unit automatically adjusts cooling capacity based on real-time load requirements for maximum energy efficiency.

Technical Features

Control System	Full-auto microcomputer control with interactive touch display
Chiller Type	Flooded screw style

Performance

Load Adjustment	Yes
-----------------	-----

Component Quality

Key Components	European Compressor, High-duty Heat Exchanger, Microcomputer Controller
