

Industrial Sewing Machine for Fabric Stitching

This industrial sewing machine is designed for precision stitching of various fabrics. Its robust frame houses a needle and presser foot assembly, along with adjustable mechanisms for controlling fabric feed and stitch formation.

Product Overview

Precision Industrial Stitching

The GC1918-MDZ is a robust industrial sewing machine engineered for high-volume fabric stitching operations. It features a precision-engineered needle and presser foot assembly to ensure consistent stitch quality across demanding production runs. Built with a sturdy frame, this machine provides the stability and durability required for professional textile manufacturing environments.

Technical Specifications

Key Components

- Needle bar
- Presser foot assembly
- Feed dog
- Tension control devices
