

Industrial Sewing Machine for Garments and Shoes

This industrial sewing machine is designed for garment, shoe, and accessory manufacturing. It features precision stitching mechanisms for creating durable and aesthetically pleasing seams.

Overview

Professional Industrial Sewing Solution

This industrial sewing machine is engineered specifically for the rigorous demands of garment, shoe, and accessory manufacturing. It features high-precision stitching mechanisms designed to deliver both durability and aesthetic quality across various fabric types. With adjustable settings for speed, tension, and stitch length, it provides the versatility needed for diverse production volumes.

Technical Capabilities

Adjustable Parameters

- Stitch length
- Thread tension
- Operating speed

Compatibility

Component	Function
Thread Types	Wide range compatibility
Needle Sizes	Adjustable for various applications

Material Compatibility

Garments, Shoes, Accessories
