

# Industrial Sewing Machine for Heavy Materials

This industrial sewing machine is designed for heavy-duty applications in garment, shoe, and accessory manufacturing. It features a robust build for handling thick materials like leather and canvas.

## Overview

### Heavy-Duty Industrial Sewing Solution

This industrial sewing machine is engineered specifically for heavy-duty applications in the manufacturing of garments, shoes, and accessories. Designed to handle thick materials such as leather and canvas with ease, it ensures consistent, high-quality seams through precision control systems. Its robust construction prioritizes durability and simplified maintenance, making it an ideal choice for high-volume production environments requiring reliability.

## Technical Specifications

### Compatible Materials

- Leather
- Canvas
- Heavy-duty fabrics

Model Number	GK900-7
Primary Applications	Garment Manufacturing, Shoe Production, Accessory Manufacturing

## Features & Capabilities

### Supported Operations

Binding • Hemming • Decorative Stitching

### Precision Controls

- Stitch length adjustment
- Tension adjustment
