

Industrial Sewing Machine for Heavy Textiles

This industrial sewing machine is designed for heavy-duty textile applications. It features adjustable stitch settings, automated lubrication, and integrated safety features.

Product Overview

Industrial Heavy-Duty Sewing Performance

This industrial sewing machine is engineered specifically for heavy-duty textile applications, offering a robust construction that ensures reliability under demanding manufacturing conditions. It features a spacious work surface and a high-speed stitching mechanism optimized for efficiency in clothing, upholstery, and technical textile production. The integration of a direct-drive motor provides superior power transmission and precise operator control for consistent results.

Technical Specifications

Motor System	Direct-drive
Lubrication	Automated
Adjustable Features	Stitch Length, Stitch Width

Features

Safety Standards

- Integrated operator protection guards
- Automated safety mechanisms

Applications

Suitable Industries

Clothing Manufacturing • Upholstery • Technical Textiles
