

Industrial Sewing Machine for Textile Applications

This industrial sewing machine is designed for heavy-duty textile applications. It is suitable for garment manufacturing, upholstery, and technical textiles with adjustable settings for optimal performance.

Overview

Professional Industrial Sewing Solution

This industrial sewing machine is engineered for high-performance textile applications, offering robust construction and high-speed operation for demanding environments. It provides precise stitching capabilities suitable for garment manufacturing, upholstery, and technical textiles. With adjustable settings for stitch length and pressure, it ensures consistent quality across diverse fabric types.

Technical Specifications

Model Number	TY-6650
Country of Origin	Taiwan

Key Features

Adjustable Settings

- Stitch length
- Thread tension
- Presser foot pressure

Performance Metrics

1 Integrated

Lubrication System

Compliance and Safety

Safety Standards	Eye Protection Required, Heavy-duty Industrial Grade
