

Industrial Sewing Machine for Textile Manufacturing

This industrial sewing machine is designed for heavy-duty textile manufacturing. It features a high-speed stitching mechanism, adjustable stitch length, and a robust frame for stability.

Overview

Industrial Precision for Textile Production

This heavy-duty industrial sewing machine is engineered for high-volume textile manufacturing and apparel production. It features a robust, stable frame that minimizes vibration during operation, ensuring consistent performance. With its high-speed stitching mechanism and user-adjustable stitch length, it provides the versatility required to handle a wide range of fabrics effectively.

Performance

Operational Speed

5000 spm

Max Stitching Speed

Stitch Length Range

0 - 5mm

Features

Core Features

- Heavy-duty robust frame
- High-speed stitching mechanism
- Adjustable stitch length control
- Designed for multi-fabric versatility

Suitable Applications

Apparel Manufacturing, Textile Production, Heavy-duty Sewing
