

Industrial Sewing Machine for Textiles

This industrial sewing machine is designed for heavy-duty textile applications. It features an oil-lubrication system and adjustable knobs for precise stitching in apparel and textile manufacturing.

Overview

Industrial-Grade Textile Performance

Designed for heavy-duty textile manufacturing and apparel production, this industrial sewing machine combines robust mechanical construction with precision control. It features an integrated oil-lubrication system to maintain performance during continuous operation. With adjustable settings for diverse stitching requirements, it is a reliable workhorse for professional factory environments.

Technical Specifications

Model Series	GG20U93
Lubrication Type	Automatic Oil-Lubrication
Suitable Applications	Textile Manufacturing, Apparel Production, Heavy-duty Stitching

Features

Build Quality

Robust Construction • Heavy-duty • Precision Adjustment

Control Features

- Manual adjustment knobs
- Precision stitching calibration
- Operational lubrication monitoring
