

Industrial Sewing Machine Timing Belt

This timing belt is designed for industrial sewing machines. It provides reliable power transmission for synchronized movement of machine components.

Product Overview

Precision Timing Belt for Industrial Machinery

This high-quality timing belt is engineered for industrial sewing machines, ensuring precise and reliable power transmission. Designed for synchronized movement of critical machine components, it is constructed from durable materials to withstand demanding sewing applications. Its robust design promotes extended service life, helping to minimize downtime and maintain optimal operational performance.

Compatibility & Parts

Compatible Components & Assemblies

Part Reference	Description
E2107729000	Timing Belt XB
L179E421000	Wait Sensor Block R
L179E621000	Damper Block L
L179E721000	Damper Block L
L179E821000	Guide Bush
L179E921000	YA Fix Plate
L180E0210A0	Operation Unit
L180E1210A0	Operation Box
L180E221000	LCD Frame
L180E321000	Switch Panel OP
L180E421000	OP Cable Plate
L180E521000	Key Board Bracket
L180E621000	T Ball Bracket
L180E721000	OP Rear Plate
L180E821000	OP Back Angle
L180E921000	Operation VR Cover
L181E121000	Operation Bracket C
L181E221000	Operation Bracket B
L181E321000	Operation Pivot Shaft
L181E421000	Operation Shaft Holder
L181E521000	Operation Shaft Knob
L181E621000	Operation Lock Shaft
L181E721000	Operation Bracket A
L181E821000	Operation Guide Collar
L182E021AB0	Rear Monitor ASM

Product Features

Key Features

Industrial Grade, High Durability, Wear Resistant, Precision Timing, Synchronized Movement
