

Industrial Spray Gun with Gravity Feed

This high-performance spray gun is designed for industrial applications and features a gravity-feed system for efficient material delivery. It is constructed with durable metal components for longevity and consistent performance.

Product Overview

Industrial Spray Gun Performance

This high-performance gravity-feed spray gun is engineered for professional industrial applications, ensuring reliable material delivery and consistent performance. Constructed with durable metal components for extended longevity, it provides users with precise control over spray patterns and material flow. It is an ideal solution for specialized coating tasks in the automotive, woodworking, and manufacturing sectors.

Technical Specifications

Model ID	4001
Feed Mechanism	Gravity Feed
Construction Material	Durable Metal

Operational Features

Adjustable Settings	Spray Pattern, Material Flow
---------------------	------------------------------

Application Suitability

Suitable Industries

- Automotive
- Woodworking
- Manufacturing
