

Industrial Square Type Fan Heater, 18000W, 120V

This square-type industrial fan heater is designed for space heating applications. Operating at 120V with a power rating of 18000W, it features adjustable temperature settings and robust construction.

Overview

Industrial-Grade Heating Solution

The IFH02-120-M is a professional square-type industrial fan heater engineered for high-performance space heating in demanding environments. Built for durability and reliability, it features a robust frame for maximum stability and is specifically designed to provide consistent, powerful warmth for workshops and garages. Safety is prioritized through integrated overheat protection and an IPX4 rating for resilience.
