

Industrial Valve and Fitting Assortment

This assortment includes industrial valves, fittings, and components. The parts, which appear to be stainless steel, are designed for fluid control, welding, and storage.

Product Overview

Industrial Valve and Fitting Assortment

This comprehensive assortment features a variety of industrial valves, fittings, and essential components designed for fluid control, welding, and storage applications. Constructed from durable stainless steel, these high-quality parts are suitable for demanding industrial environments. The set includes pressure regulators, welding torches, and butterfly valves with diverse handle designs to meet various operational needs.

Component Inventory

Included Components

- Pressure regulators
- Welding torches
- Butterfly valves
- Cylindrical storage container

Model Identifiers

Item Type	Product Code
General Assortment	AR001
Component	AG-60
Valve/Fitting	p6-6
Valve/Fitting	p6-5
Valve/Fitting	p6-4
Valve/Fitting	p6-3
Valve/Fitting	p6-2
Valve/Fitting	p6-1
Valve/Fitting	p4-6

Material & Build

Material

Stainless Steel

Applications

Primary Applications

Fluid Control, Welding, Industrial Storage
