

Industrial Vehicle Headlight Assembly

This headlight assembly is designed for industrial vehicles and rubber processing machinery. It features turn signal, low beam, and high beam sections encased in a durable housing with a clear lens.

Product Overview

Industrial Vehicle Headlight Assembly

This robust headlight assembly is engineered for demanding industrial environments and heavy-duty machinery. It features an integrated multi-compartment design that includes dedicated sections for turn signals, high beams, and low beams to ensure comprehensive lighting coverage. Encased in durable, high-impact housing, this unit provides reliable illumination and enhanced safety during machine operation.

Technical Features

Integrated Functions

- Turn signal indicator
- Low beam
- High beam

Assembly Design

Multi-compartment integrated unit

Suitability

Industrial Machinery, Heavy-duty Vehicles, Rugged Environments
