

Industrial Wall Mount Fan

This industrial wall mount fan provides a robust and efficient cooling solution for industrial and commercial environments. Its wall-mounted design saves floor space and allows for optimal positioning in warehouses, factories, and workshops.

Product Overview

Industrial Wall Mount Fan

The Industrial Wall Mount Fan is a robust and efficient cooling solution designed specifically for demanding industrial and commercial environments. Engineered with a high-velocity motor, it delivers powerful airflow to ensure effective air circulation in large spaces such as warehouses, factories, and workshops. Its space-saving wall-mounted design, combined with adjustable tilt and swivel functions, allows for precise directional control and optimal positioning.

Technical Specifications

Ideal Applications

- Warehouses
- Factories
- Workshops
- Commercial environments

Design Features

Wall-mounted, Adjustable tilt, Swivel function, Safety grille

Performance

Performance Capability

High-velocity motor • Powerful airflow
