

Industrial Wall Mount Fan

This wall-mounted fan is designed for industrial and commercial environments. It features a metal cage for safety and provides efficient air circulation.

Product Overview

Industrial Ventilation Solution

This range of ventilation fans is engineered with a focus on durability, material quality, and operational efficiency. Designed specifically for industrial and commercial environments, these units provide reliable air circulation to maintain optimal conditions in large spaces. The design emphasizes a balance between high-performance functionality and cost-effective maintenance for professional facilities.

Technical Features

Construction Materials

- Metal fan blades
- Protective steel cage
- Heavy-duty mounting pole

Safety Standards

Robust Metal Cage, Wall-Mounted Design, Secure Bracket Mounting

Design Highlights

Core Design Philosophy

High Efficiency • Economical Operation • Low Maintenance • Industrial Grade
