

# Industrial Washing Machine

This industrial washing machine is a robust solution for heavy-duty laundry needs. It features a stainless steel drum and digital interface for precise control.

## Product Overview

### Industrial Efficiency

The XGB series industrial washing machine is a robust and efficient solution designed for heavy-duty laundry needs in commercial settings. Featuring a high-quality stainless steel drum, this machine ensures durability, hygiene, and long-term performance. It is specifically engineered for professional environments, including hospitals, hotels, and large-scale mining enterprises, providing reliable care for various fabrics such as cotton, wool, and chemical fiber blends.

## Technical Specifications

Design Structure	Horizontal cylinder
Drum Material	High-quality stainless steel

## Applications

### Fabric Compatibility

- Cotton
- Wool
- Hemp
- Chemical fiber blended fabrics

Suitable Industries	Hospitals, Hotels, Laundry Services, Mining Enterprises, Dyeing Houses
