

# Industrial Water Pump for Drainage and Irrigation

This water pump is designed for efficient operation in diverse settings. Its durable construction makes it suitable for both drainage and irrigation applications.

## General Overview

### Industrial Water Pump

This robust industrial water pump is specifically engineered for high-performance drainage and irrigation applications. Its durable construction ensures reliable operation in demanding environments. Featuring a powerful integrated motor, this unit provides the efficiency required for continuous fluid transfer tasks.

## Performance Specifications

### Construction Finish

Durable Construction • Blue Painted Finish

### Primary Applications

Drainage, Irrigation

### Motorized Operation

Yes
