

# Industrial Water Pump Set

This water pump set is engineered for efficient water transfer. Its robust construction and user-friendly operation make it suitable for various water pumping needs.

## ADDITIONAL IMAGES

## Product Overview

### Industrial-Grade Diesel Water Pump

This industrial water pump set is engineered for high-efficiency fluid transfer in demanding environments. Featuring robust construction and a reliable air-cooled diesel engine, it is designed for consistent performance in agricultural or industrial applications. The assembly includes a stable frame for easy integration and transport, ensuring durability and ease of use for professional operations.

## Technical Specifications

Cooling System	Air-cooled
Engine Type	Diesel

## Quality & Compliance

Certifications	ISO 9001:2008, ISO 14001:2004
----------------	-------------------------------

## Assembly Components

### Component List

- Centrifugal water pump
- Flanged fittings
- Wear plates
- Integrated wheeled frame
