

Industrial Water/Air Chiller Unit

This industrial chiller is designed for either water or air cooling applications. It features a control panel with a digital display and pressure gauges to monitor performance.

Product Overview

Industrial Cooling Performance

This industrial chiller unit is engineered for versatile water and air cooling applications in demanding environments. It features an intuitive control panel with a digital display and integrated pressure gauges to ensure precise operational monitoring. The design includes both casters and adjustable feet, allowing for seamless mobility throughout your facility and stable positioning during heavy-duty operation.

Operational Features

Monitoring Interface

- Digital display panel
- Pressure gauges

Cooling Modes

Water Cooling, Air Cooling

Physical Attributes

Mobility & Stability

- Integrated heavy-duty casters
- Adjustable leveling feet

Environment Suitability

Industrial Use
