

Industrial Welding Machine with Wire Feeder

This heavy-duty welding machine is designed for industrial applications requiring high-performance welding capabilities. It features adjustable settings, robust construction, and an integrated wire feeder.

Overview

Industrial Welding Powerhouse

The NR500 is a heavy-duty welding machine engineered for demanding industrial environments. It features an integrated wire feeder system and a highly precise control panel to ensure consistent weld quality. Designed with mobility and durability in mind, the unit is mounted on a robust chassis with integrated wheels for effortless site maneuverability.

Technical Specifications

Design & Utility

- Integrated precision control panel
- Mobile base with heavy-duty wheels
- Robust industrial construction
- High-performance duty cycle

Compliance

NTJY-AUTO • NTJYHJ

Model Name

NR500

Welding Capabilities

Industrial Grade, Integrated Wire Feeder, Adjustable Settings
