

Industrial Zigzag Sewing Machine

This industrial sewing machine is designed for zigzag stitches on materials like parachutes and shoes. The G11 series offers models with different speeds and stitch widths.

Product Overview

Industrial Precision Zigzag Sewing Machine

The G11 series industrial zigzag sewing machine is engineered for high-performance stitching on medium to thick fabrics. It is an ideal solution for specialized production environments, specifically designed for manufacturing parachutes, bicycle seats, footwear, and caps. With versatile model variations, this machine delivers consistent professional results across diverse textile applications.

Technical Specifications

Performance Metrics by Model

Model	Max Speed (s.p.m)	Stitch Width (mm)
G11-5	1300	1~3
G11-7	1300	<7
G11-6	1500	0~7

Operational Highlights

1500 s.p.m
Maximum Sewing Speed

100 Kinds
Supported Stitch Variations

Features & Compatibility

Compatible Needle Sizes

- Nm 11~18
- Nm 21~22

Industry Applications

Parachutes, Bicycle Seats, Shoes, Caps, Medium-to-Heavy Fabrics
