

Infrared Cabin Sauna Lamp

This high-intensity infrared lamp is designed for use in infrared cabins and saunas. The clear quartz glass tube ensures maximum heat transmission and efficient energy conversion.

Product Overview

High-Intensity Therapeutic Infrared Solution

This infrared cabin sauna lamp is engineered for professional-grade heat transmission within infrared cabins and saunas. Utilizing a high-quality clear quartz glass tube, it ensures maximum thermal efficiency and deep-penetrating warmth. The robust construction is specifically designed to withstand the high-temperature demands of wellness environments, making it an ideal choice for both relaxation and therapeutic applications.

Technical Specifications

Construction Standard

High-Temperature Resistant • Durable Design • Professional Grade

Element Type	Clear quartz glass tube
Primary Applications	Infrared Cabin, Sauna, Therapeutic Use, Relaxation
