

Infrared CCTV Security Camera

This CCTV security camera provides high-resolution imaging for surveillance applications. It features infrared LEDs for night vision and a weatherproof housing for outdoor use.

Overview

Professional Surveillance Solution

The PA-99I series infrared ray camera is engineered for high-performance outdoor surveillance. Designed with robust, weatherproof construction, it ensures reliable operation in demanding environmental conditions. Its integrated infrared technology provides clear, high-resolution imaging, making it an ideal choice for 24/7 monitoring applications.

Key Features

Surveillance Capabilities	High-Resolution, Infrared Night Vision, Outdoor Rated, Weatherproof
