Product Overview

Instant Gas Water Heater

This high-efficiency instant gas water heater is designed for consistent and reliable hot water delivery in residential environments. Featuring advanced constant temperature control technology, it ensures a stable water supply even during high demand. The unit is engineered with a strong exhaust system for safety and includes a digital interface for precise temperature monitoring and operational control.

Performance Metrics

Hot Water Capacity

13 L/min

Capacity (t=25)

16 L/min

Capacity (t=25)

18 L/min

Capacity (t=25)

Rated Heat Input

- 25
- 30
- 34

Technical Specifications

Energy Efficiency Standard

Level 2

Water Pressure Range

0.02 - 0.8 MPa

Exhaust Method

Constant temperature strong exhaust

Physical Attributes

Net Weight	12.2 KG
Unit Dimensions	350 x 615 x 163 mm
