

Insulated Diagonal Cutting Pliers

These diagonal cutting pliers are designed with insulated handles for electrical work. They are suitable for cutting hard and soft wires, cables, and small metal components.

Product Overview

High-Leverage Electrical Pliers

These high-leverage diagonal cutting pliers are engineered for demanding electrical work. Featuring precision-ground cutting edges, they deliver clean and efficient cuts on both hard and soft wires, cables, and small metal components. The insulated handles offer essential protection against electrical shock, making them a reliable tool for professional electricians and DIY enthusiasts alike.
