

Insulated Overhead Power Cable

This cable is suitable for overhead power transmission and distribution lines. It features a conductor with electrical insulation and environmental protection.

Product Overview

Insulated Overhead Power Cable

This insulated overhead power cable is engineered for reliable electrical transmission and distribution. It features a versatile conductor core available in AAC, AAAC, or ACSR configurations to suit various load requirements. The insulation system, utilizing LDPE, HDPE, or XLPE, ensures robust electrical performance and long-term environmental protection for outdoor installations.

Technical Specifications

Insulation Material Options

- Low-Density Polyethylene (LDPE)
- High-Density Polyethylene (HDPE)
- Cross-linked Polyethylene (XLPE)

Conductor Material Options

AAC, AAAC, ACSR

Applications

Primary Application

Overhead power transmission and distribution lines
