

Insulated Service Line Tension Clamp

This tension clamp facilitates easy installation without the need for extra tools. Its design prevents any loose parts from detaching during installation.

Product Overview

Reliable Tensioning Solution

The FHA205 insulated service line tension clamp is engineered to securely anchor and tighten service lines on both poles and walls. Constructed from high-strength, weather-resistant, and anti-UV materials, this clamp ensures long-term durability in outdoor environments. Its design prioritizes efficiency, allowing for easy installation without the need for additional tools, while ensuring no loose parts are lost during the process.

Technical Specifications

Type	Conductor Size (mm ²)	Failure Load(kN)	Pack (pcs)
FHA205-16-70	16-70	2	80

Technical data overview for the FHA205 series tension clamp.

Compliance Standard

NF C 33-042

Model	FHA205-16-70
Conductor Size	16-70 mm ²
Failure Load	2 kN

Logistics

Pack Quantity	80 pcs
