

# Insulated Stainless Steel Coffee Mug

This insulated coffee mug is made from stainless steel and designed for both hot and cold beverages. It features a double-walled construction and comes with a spill-resistant lid.

## ADDITIONAL IMAGES

## Product Overview

### Premium Insulated Coffee Mug

This durable coffee mug features a high-quality 304 stainless steel body, ensuring longevity and resistance to corrosion. Designed with double-wall vacuum insulation, it maintains beverage temperatures effectively, keeping drinks cold for up to 9 hours and hot for up to 3 hours. With a user-friendly design including a straw hole and a secure rubber sealing ring, this mug is an ideal solution for both daily commutes and office use.
