

Intelligent Robotic Vacuum Cleaner with Obstacle Avoidance

This robotic vacuum cleaner protects floors with automatic sensors. It cleans wood, tile, carpet, and hard-to-reach places, while avoiding obstacles and automatically recharging.

Product Overview

Intelligent Cleaning Solution

This intelligent robotic vacuum cleaner is designed for convenient and thorough floor maintenance. Equipped with advanced sensors, it effectively navigates various surfaces, including wood floors, ceramic tiles, and carpets. The unit features automatic obstacle avoidance, anti-drop functionality, and low-voltage alerts, ensuring a safe and efficient cleaning experience.

Key Features

Smart Functionality

Automatic Obstacle Avoidance, Anti-Drop Protection, Low-Tension Reminder, Auto-Recharge

Technical Details

Surface Compatibility

- Wood floor
- Ceramic tile
- Carpet

Design Focus

Modular Assembly • Easy Maintenance
