Overview

Professional IPL Hair Removal Solution

This Intense Pulsed Light (IPL) hair removal device provides a safe and effective method for long-lasting hair reduction from the comfort of home. Utilizing advanced quartz glass technology with a lifespan exceeding 300,000 flashes, it targets hair follicles to inhibit regrowth. Designed for versatility and ease of use, the device features five adjustable intensity levels, a clear LCD display, and a compact, ergonomic build suitable for various body areas.

Technical Specifications

Power & Electrical

36 W

Power

12 VDC

Voltage

3 A

Current

Performance & Light

- Wavelength: 530nm
- Light transmission area: 3cm²
- Flash rate: 1Hz (1st gear)
- Light emission time: 1-3.5s
- Intensity levels: 5 gears

Lamp Lifespan

300000 flashes

Design & Build

Construction Materials

Quartz Glass, ABS, UV Plating

Product Dimensions

13.4 x 7.1 x 4.2 cm

Net Weight

0.18 kg

Safety & Compliance

Certifications

CE • FCC • ROHS • EMC • LVD • GS • UL • CCC • PSE

Safety Protection Points

3
