Overview

Interactive LED Dance Floor Experience

Transform any event space with this high-performance interactive LED dance floor. Designed for durability and visual impact, these displays feature a high-precision die-casting aluminum cabinet that ensures a seamless, gapless surface. Engineered for heavy-duty use, the floor supports weights exceeding 1500kg/SQM, making it ideal for nightclubs, concerts, and professional entertainment venues.

Technical Specifications

Available Pixel Pitches	P8.93mm, P10.42mm, P12.5mm, P15.63mm
Load Bearing Capacity	1500 kg/SQM
