

# Interactive Maze Cube Puzzle

This three-dimensional maze puzzle toy is designed for ages 5-99. The objective is to guide a small ball through the internal maze by tilting and rotating the clear plastic cube.

## Product Overview

### Interactive Maze Cube Puzzle

This three-dimensional maze puzzle offers an engaging challenge for puzzle enthusiasts of all ages. Designed with a clear, durable plastic housing, it features an intricate internal maze that requires precision, patience, and dexterity to solve. Players must carefully tilt and rotate the cube to navigate a small ball through the complex path, making it an excellent tool for enhancing hand-eye coordination and critical problem-solving skills.
